1. Opening Remarks

I did not expect to be here. Yet, here we are. I've hit the ground running, and here's to hoping that we keep that pace up. I'm available to take on the board's ad hoc tasks and address budgetary/financial concerns.

Looking forward to working for y'all :)

2. Project Updates

2.1. Senate Activities

- Met with this year's Senate
 - A successful lunch-in with an attendance of two!!! Please come to the next scheduled lunch-in (approximately a month from now), please.
- Identified multiple communication gaps between current Senate and Board, launched a platform for meeting/discussion.
 - Board Members invited to join to talk to current Senate Members in the [Loomio.eu](https://loomio.eu) platform. If you haven't gotten an invite, please let me know. The invite may have been redirected to your junk :)
- Looking towards reforming the Senate policies :)
 - Suggestions needed as to how to improve the governance portions of the Senate (mainly Senator selection, term lengths, and institutional memory)
 - **Join our Senate Reform Committee**; it's my dedicated two-hour block for Senate stuff. Just ask for an invite :)

2.2. Student Aid Program

- Successfully obtained a sample of the student records that the OVPS office provides to the SAP program for processing.
- **TODO:** Create/develop a Python script that can fuzzy-match the records from OVPS with form submissions.
- **In-Progress:** Re-writing the SAP form and formalizing the SAP into a policy. If y'all can find me the "official" guidelines/criteria for administering the program, I'd love to see it (cannot find where it's documented; please help).

- I need help creating/updating the Scholarships form (have dropped a msg in the SAP committee chat); tbd on exactly what I want, but I would like for the SAP committee to meet soon to write/revise it.
- **In-Progress:** Providing SAP projections given the \$5 increase to our levy.

2.3. Board Activities

- That new template? Woop-woop! I made her; she's my baby.
 - Also, I've been taking minutes/agenda making the agenda; any concerns about minute-taking practices should be directed first to me for consultation/resolution; then the GM; then the board itself :)
- I would *like your suggestions on the template and a discussion with the governance committee to formalize it.*
 - Need input on prepping a policy on "Minimum Standards for Minutes."
 - **TODO:** Come up with a process and documentation for how the workflow for templates-to-minutes should work.
- **Governance:** Working on organizing / potentially setting up a GitHub repository for Board Minutes/Records as a back-up immutable repository for Board Records.

2.4. Audit

- Been looking to get my bearings with the UTSU finances and plan to speak to the Finance committee on those aspects!!!
 - Prepping for the busy week coming in July.

2.5. Website + Branding

- With the President, have begun investigating the state of the UTSU brand.
 - Adopted Calibri as the transition font away from Montserrat.

3. Collaborations with Executive Team/Adjacents

3.1. President

Been privy to the Food Bank by ProgServ and the Food Coop by Regenesis.

3.2. VP Public & University Affairs

Goin' to the Cloverhill Bay Town Hall as a delegate rep :)

3.3. VP Student Life

Spoke with VPSL to disburse last year's early Clubs portal closure/reviewed it only. Looking forward to hearing about Orientation/getting caught up with the planning aspects. Forwarded club funding requests to privy departments (VPSL and VPPF); refer to their reports :)

3.4. VP Equity

Have not had the opportunity to collaborate, but generally have done executive committee actions :)

3.5. VP Professional Faculties

Sought input for Senate / ProFac context provided :) Have discussed funding approvals with VPSL regarding PASA funding.

4. Departmental Interactions

4.1. Operations

Looking to beautify the terrace/patio. PLANTS!!!

4.2. Outreach & Engagement

I am on the website committee, and am reviewing content/links. Here's the internal site-map tracker, that has been developed by O+E and with revisions from me:  Website Pages/Review

5. External Interactions

5.1. APUS - VP Internal

Have sent an email to them after meeting with them in person. Looking forward to finding all the other SU VP Internals and connecting with them.

6. Executive Initiatives

6.1. Executive Grants to Students

Passed and disbursed a one-time financial relief grant to Zola from Exec Funds.

7. FYIs for Board

7.1. Referendums for Matching Certain Levies to CPI

- Some of our levies (e.g., orientation) aren't tied to CPI; I am considering asking the student body to vote in a referendum to tie them to CPI and increase the total Orientation levy to \$1 per year.

8. Closing Remarks

We'll continue to provide updates to the Board through internal channels, but this is pretty much all you need to know / what I've been up to :)
